| Title | Do enhanced general practice services improve health outcomes and health service use? Flinders Quality Enhanced general practice Services Trial (Flinders - QUEST) |
| Protocol Number | Q1720 |
| Project Sponsor | Flinders University |
| Principal Investigator | Professor Richard Reed |
| Location | Adelaide, South Australia |

Declaration by Participant

I have read the Participant Information Sheet.

I understand the purposes, procedures and risks of the research described in the project.

I understand I will be asked to complete questionnaires about my personal details, health and feedback at the beginning of the study, at six months and at twelve months into the study.

I understand that half the general practices in the study will be randomly allocated to a Control group and half the practices to an Intervention group and that only practices in the Intervention group will provide enhanced services.

I give permission for my doctors, other health professionals, public and private hospitals or laboratories to release information to Flinders University concerning my disease(s) and treatment(s) for the purposes of this project. I understand that such information will remain confidential.

I have had an opportunity to ask questions and I am satisfied with the answers I have received.

I freely agree to participate in this research project as described and understand that I am free to withdraw at any time during the study without affecting my future health care.

I understand that I will be given a signed copy of this document to keep.
